

HOW CAN YOU PROPERLY DISPOSE OF HOUSEHOLD HAZARDOUS WASTE IN CHURCHILL COUNTY?

DID YOU KNOW...

Paints, oil, grease, batteries, unused medications, and chemicals can pollute your drinking water. Properly dispose of or recycle, help to protect drinking water and the environment for ourselves and future generations.

*Dispose at proper waste facilities
Do not flush down the drain or pour in the yard
Use safer alternatives to harsh chemicals when possible*

Where should you take household hazardous waste?

The Fallon Transfer Station is open from 8:30 am to 4 pm seven days a week and will receive small quantities of Household Hazardous Waste. Call in advance to discuss your disposal needs.

- Fallon Transfer Station
2900 Enterprise, Fallon, NV 89406
775-423-4157

Don't pour grease, fats, or harmful chemicals like paints and solvents down your sink. They can harm your drinking water.

- [What to do About Household Chemicals](#)

Where should I take unwanted or expired medications?

Never put unused medications down the drain or flush them down the toilet. Many of them cause ecological harm and current sewage treatment systems are not effective in removing drugs from water. Take unwanted medications to:

- Churchill County Sheriff's Department
73 N. Maine Street
Fallon, NV 89406
775-423-3116

What should I do with pesticides, herbicides, insecticides, etc.?

Nevada Department of Agriculture has a free disposal service for unused pesticides. Materials may be dropped off at their Reno facility by appointment. Call 775-353-3715 for details.

What should I do with old latex paint?

The bottom line for latex paint disposal is to include it with your garbage, but it has to be solid first (and leave the lid off the can so the garbage hauler/attendant can see that it is solid). Paint hardeners are available at the Walmart store in Fallon.

What to do with used motor oil?

Used motor oil can be brought to several automotive facilities in Fallon. There must be no other contaminants in the motor oil (i.e. water or gas)

Only small quantities are accepted so don't save up your used motor oil for an extended period of time - facilities have limited container space.
