

Christian A. Kropf

Senior Hydrogeologist
Truckee Meadows Water Authority (TMWA)

Christian Kropf is a Senior Hydrogeologist for the Truckee Meadows Water Authority (TMWA) in Reno, Nevada. He has been a hydrogeologist for TMWA for 6 years and for the former Washoe County Department of Water Resources (DWR) for 14 years. Prior to working at DWR, he was employed as an environmental consultant for almost 4 years managing groundwater remediation projects throughout Northern Nevada and California.

In his role with TMWA, he is involved in all aspects of groundwater resource supply, characterization, remediation, and protection. He has developed and/or updated the majority of the state-endorsed wellhead protection programs for TMWA's 90+ water supply wells and enjoys the challenge of long-term source water protection. His day-to-day duties include new well siting, design, installation, and testing; well rehabilitation and redevelopment; groundwater supply and analysis; and the permitting, design, implementation, and analysis of aquifer storage and recovery projects throughout TMWA's service areas.

Christian earned a Bachelor's degree in Environmental Geology from Case Western Reserve University in Cleveland, Ohio and a Master's degree in Hydrogeology from the University of Nevada, Reno. Christian is a certified Project Management Professional (PMP), Professional Geologist and Certified Hydrogeologist in California, and a Certified Environmental Manager in Nevada.

Christian loves to spend his free time exploring Nevada while fishing, hiking, backpacking, and camping with his family.
